“My teachers cannot do this.”

The answer is support and a simple process — not a perfect teacher.

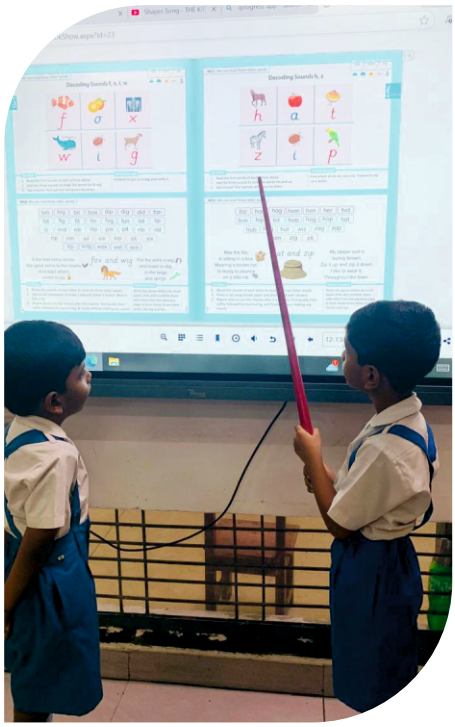

30,000+ SCHOOLS ALREADY USE ALfA

Government and budget private schools, alongside elite schools, are implementing the approach. The CMS school system is also putting it into practice.

THE TEST IS IN YOUR OWN CLASSROOM

Begin with one Chapter Challenge. Watch ordinary teachers using a repeatable routine with their own students.

Come for 1, 2 or 3 days. See teachers in action.

“My teachers’ English is not good enough.”

Fluency should not be the barrier to learner-led teaching.

THE PROCESS DOES THE HEAVY LIFTING

Simple paired-learning routines, book prompts, examples and videos reduce reliance on long teacher explanations.

TEACHERS GROW WHILE TEACHING

HiPATH Elevate supports spoken English, confidence, Socratic questioning and professional learning — day after day.

Do not ask whether every teacher is ready. Help every teacher grow.

Hear it from school leaders.
